MEMORANDUM FOR: Chief, Management Staff, DA

FROM:

[REDACTED]
 Director of Communications

25X1

SUBJECT: Submission of New Communications Support
 Requirements for FY 1985 through FY 1989

25X1

1. It is requested that FY 1985 through FY 1989 communications support requirements for the Directorate of Administration's (DA) offices be forwarded to the Office of Communications (OC) by 1 November 1982. It is further requested that the requirements be identified in the same format as the attached example. Please assign a requirement number, as shown in the upper right corner of the example, to help us identify each requirement in subsequent correspondence. The example number (DA/OL-01/85) identifies the Directorate/Office and the requirement number/program year. As in previous years, a priority rank of each requirement should also be assigned. [REDACTED]

25X1

2. The FY 1984 Budget Call instructed that new communications initiatives would be programmed by the requesting component, with OC programming for the appropriate support in subsequent years. These instructions have not changed in several years and we foresee no change in the FY 1985 program year. The submission date requested above will provide us with sufficient time to prepare and forward cost estimates for new initiatives to the appropriate office by 31 January 1983. [REDACTED]

25X1

3. As in past years, OC representatives are prepared to assist members of your staff with any new requirements as necessary. The focal point for the new support requirements is the Systems Integration Staff, Engineering Division (OC-ED/SIS). [REDACTED] is the Systems Requirements Manager (SRM) and is the primary contact for Directorate and OC requirements coordinators. [REDACTED]
